

Capsule Hotel Zurich Airport

On an area of approx. 1000m² at Zurich Airport, the largest capsule hotel in Switzerland has been built. Travellers are able to benefit from Alpine Garden AG's 144 lockable and sound-insulated sleeping capsules as well as gastronomy, meeting and coworking areas located directly on the premises of Zurich Airport.

Client

Alpine Garden AG

SAS Architektur & Beratung GmbH

Location

Zurich Airport

Use

Capsule hotel, gastronomy, coworking and meeting space

Key Dates

2021 | Design and construction

2022 | Opening 12th February

Our Role

General planner

Our Tasks

As General Planner, waldner partner was responsible for the overall organisation and realisation of the Capsule Hotel Zurich Airport. Our tasks included the building permission application, tendering, construction supervision, cost- and quality-control as well as scheduling. Throughout the process we worked closely with the owner of Capsule Hotels as well as with Zurich Airport as landlord. Requirements were constantly assessed with regards to costs, quality and timing.
