

# **SBB Lenzburg Project Office**

waldner partner was commissioned with the architectural concept and realisation of the rental fit-out for SBB's Infrastructure Department. Spread over 2 floors with a total area of 500m2, a variety of uses were provided for: an entrance area on each floor equipped with the ROD system designed by waldner partner, 16 workstations in 4 offices, 3 flexible meeting rooms for 6-18 people convertible to a large space for approx. 50 people, 2 sustainably renovated shower and changing areas and 2 single bedrooms. Specifications included a short construction time, partly during daily operations, and a temporary overall duration of use of approx. 10 years. Communication with the landlord was conducted through waldner partner.
